

Business by the numbers

Fully subsidised two part short course
designed to suit those who need to balance
learning with other commitments.

Register now visit www.dwn.co.nz/events

During this two-day workshop, you will be provided practical techniques for managing cash flow & improving profitability as well as develop a cash flow budget for 2019.

Learn about:

- Annual budgets
- Farm management calendars
- Calculating milk income (introduction)
- Estimating and tracking monthly expenses
- Scenario testing
- Estimating for tax and interest payments
- Predicting your working capital (OD) requirements
- Forecasting monthly surplus or deficit

This would suit those self employed wanting to ensure they are on the right track. Also those new to budgeting looking to step into self-employment opportunities in the future.
