

B+LNZ Trevor's Top Tips Webinars

Beyond the drench: breaking the worm cycle with better systems

Join us this September for a powerful three-part webinar series exploring how smart systems can reduce reliance on drenches and improve parasite control.

Each session will run from 7.00pm – 8.00pm and dive deep into practical, proven approaches across different farming systems.

Facilitated by Ginny Dodunski and Trevor Cook.

 Webinar 1	Thursday, 11 September 7.00pm	Sheep breeding and finishing
 Webinar 2	Thursday, 18 September 7.00pm	Intensive finishing systems
 Webinar 3	Thursday 25 September 7.00pm	Cattle systems

Topics covered

- Key principles for parasite management.
- Clever farm systems that break the worm cycle.
- Monitoring strategies that work on the ground.

Whether you're looking to fine-tune your current system or take a whole new approach, these sessions will equip you with the tools to farm more effectively.

Share your top tips

What "top tips" have you picked up from Trevor Cook over the years? Email them through to renee.harland@beeflambnz.com and we'll share some in the webinars for Trevor to revisit and build on.
